

● Multiplying number of circles

(1)

$$8 \times 9 = \square$$

(2)

$$1 \times 2 = \square$$

(3)

$9 \times 4 = \square$

(4)

$7 \times 7 = \square$

(5)

$5 \times 3 = \square$

(6)

$$6 \times 5 = \square$$

(7)

$$3 \times 6 = \square$$

(8)

$$4 \times 8 = \square$$

(9)

$$2 \times 1 = \square$$

(10)

$$4 \times 4 = \square$$

(11)

$$7 \times 9 = \square$$

(12)

$$8 \times 3 = \square$$

(13)

$$2 \times 7 = \square$$

(14)

$$6 \times 8 = \square$$

(15)

$$3 \times 6 = \square$$

(16)

$$9 \times 2 = \square$$

(17)

$$1 \times 5 = \square$$

(18)

$$3 \times 7 = \square$$

(19)

$$1 \times 4 = \square$$

(20)

$$6 \times 8 = \square$$

(21)

$$7 \times 6 = \square$$

(22)

$$9 \times 2 = \square$$

(23)

$$8 \times 3 = \square$$

(24)

$$4 \times 5 = \square$$

(25)

$$2 \times 9 = \square$$

(26)

$$7 \times 6 = \square$$

(27)

$$9 \times 4 = \square$$

(28)

$$8 \times 7 = \square$$

(29)

$$6 \times 8 = \square$$

(30)

$$2 \times 2 = \square$$

(31)

$$3 \times 9 = \square$$

(32)

$$4 \times 5 = \square$$

(33)

$$1 \times 3 = \square$$

(34)

$$3 \times 7 = \square$$

(35)

$$4 \times 9 = \square$$

(36)

$$8 \times 8 = \square$$

(37)

$$9 \times 4 = \square$$

(38)

$$7 \times 2 = \square$$

(39)

$2 \times 6 = \square$

(40)

$5 \times 3 = \square$

(41)

$1 \times 5 = \square$

(42)

$7 \times 4 = \square$

(43)

$$9 \times 9 = \square$$

(44)

$$8 \times 3 = \square$$

(45)

$$5 \times 2 = \square$$

(46)

$$3 \times 8 = \square$$

(47)

$$1 \times 6 = \square$$

(48)

$4 \times 5 = \square$

(49)

$2 \times 7 = \square$

(50)

$4 \times 3 = \square$
